Placemats machine

TECHNICAL DATA

Max speed: 80 m/ min.
Reel diameter: 1200 mm.
Reel width: 400 to 500 mm.
Operating compress air: 6 bar.
Length: 11068 mm.
Width: 2612 mm.
Height: 2024 mm.
Weight: 6950 kg.
Material: paper, air laid, non woven.
Electrical power: 21 Kw.
Electrical connection: 3 x 400V + N/PE.
Production: 15000 Ud/hour per unwinder.

FEATURES

The machine works with 2 unwinders to get the 30000 Ud/hour.
 Possibility to manufacture several formats, from 350 to 500mm width, and 300 to 350mm of length.
 The format change can be carried out in about 15 minuts by one worker.
 Automatic collector.

ADDITIONAL OPTIONS

Unwinder for reel of 1500mm.
 Flexo printing group.
 Embossing cylinder steel-steel.
 Drying tunnel system.
 Remote maintenance via modem.
 Group of insertion of plastic film.
